

Children's Ministries

developing leaders, impacting kids

International Children's Ministries is committed to developing leaders who have an eternal impact on the lives of the children they serve. We do so by providing quality and accessible **training** experiences, producing relevant **resources** for local church ministry, and cultivating a **community** for support and encouragement.

CHILDREN'S MINISTRIES CERTIFICATION

Our online certification program presents ten competencies for the effective children's minister. Each module includes video instruction, assignments, and downloadable resources. When all courses and required verification are completed, an endorsement in children's ministry will be issued.

Level I available now. Level II available in November 2021.
